

Fred Egbuedike

University Lecturer & Quantitative Technical Trainer

Candidate: Financial Engineering Guest Lecturer | Statistical Inference in Finance

Chengdu, China | fred.egbuedike@email.com | +86 138 0000 0000 | M.Sc. (SWJTU) | TEFL Certified

PROFILE

Quantitative educator and technical trainer with 8+ years of teaching and corporate training experience in China. **M.Sc. in Information Security from Southwest Jiaotong University** with strong computational and quantitative foundations. English-medium teaching experience with PhD researchers and professionals at CAS, Midea, Hisense and NetEase, plus international blockchain and fintech speaking experience. Prepared to deliver a complete 64-hour Statistical Inference in Finance course.

COURSE READINESS

64-hour course	Applied delivery	Teaching evidence
Probability, estimation, confidence intervals, hypothesis testing, regression and introductory time-series inference.	Python, SciPy, Statsmodels, Pandas and Jupyter; problem sets, midterm and final project.	Prepared stock-return hypothesis-test lesson with financial interpretation, code and student exercise.

RELEVANT TEACHING & TECHNICAL EXPERIENCE

Blockchain & Fintech Conference Speaker | [International Conferences](#) 2019-2021

- Presented blockchain technology and financial applications; translated technical concepts for professional audiences.

English Instructor - Academic Communication | [Chinese Academy of Sciences \(CAS\)](#) 2013

- Trained 60+ PhD students and researchers; prepared learners for international publication and conference presentation.

Language Consultant - Corporate Training | [Midea Group - Fortune Global 500](#) 2024-2025

- Designed and delivered English-medium technical training across legal, finance, R&D and sales; created materials and assessments.

Language Consultant - Corporate Training | [Hisense Group - Fortune Global 500](#) 2024-2025

- Delivered English-medium training for research, finance, legal and sales departments; developed lesson plans and assessments.

Executive Lecturer | [NetEase](#) 2019-2020

- Delivered executive-level English training for senior professionals in high-stakes communication contexts.

ESL Instructor | [Private Language Training Schools](#) 2014-2018

- Four years full-time teaching; curriculum, lesson-plan and assessment development; mixed-ability classroom management.

EDUCATION

M.Sc. - Information Security | [Southwest Jiaotong University, Chengdu](#) 2013

B.Sc. - Computer Science | [University of Nigeria](#) 2010

M.Sc. relevance: quantitative/computational postgraduate foundation including mathematical reasoning, algorithms, data integrity and secure systems.

SKILLS & LANGUAGE

Python (SciPy, Statsmodels, Pandas) | Jupyter Notebooks | Data Analysis | Quantitative Methods | Curriculum Design | Classroom Management | Interactive Teaching | Native English Speaker | Conversational Chinese

PROPOSED COURSE & AVAILABILITY

Statistical Inference in Finance - 64 teaching hours, 4-week intensive. Financial applications include stock returns, portfolio parameters, CAPM and event-study reasoning. Full syllabus, Python labs, problem sets and assessments prepared.

Available September 28 - October 23, 2026 | Onsite in Changchun. References available upon request.
